Building Cloud Native Apps with Knative and TektonCD (Tutorial)

Carlos Santana
IBM Cloud Architect

#lfelc @csantanapr

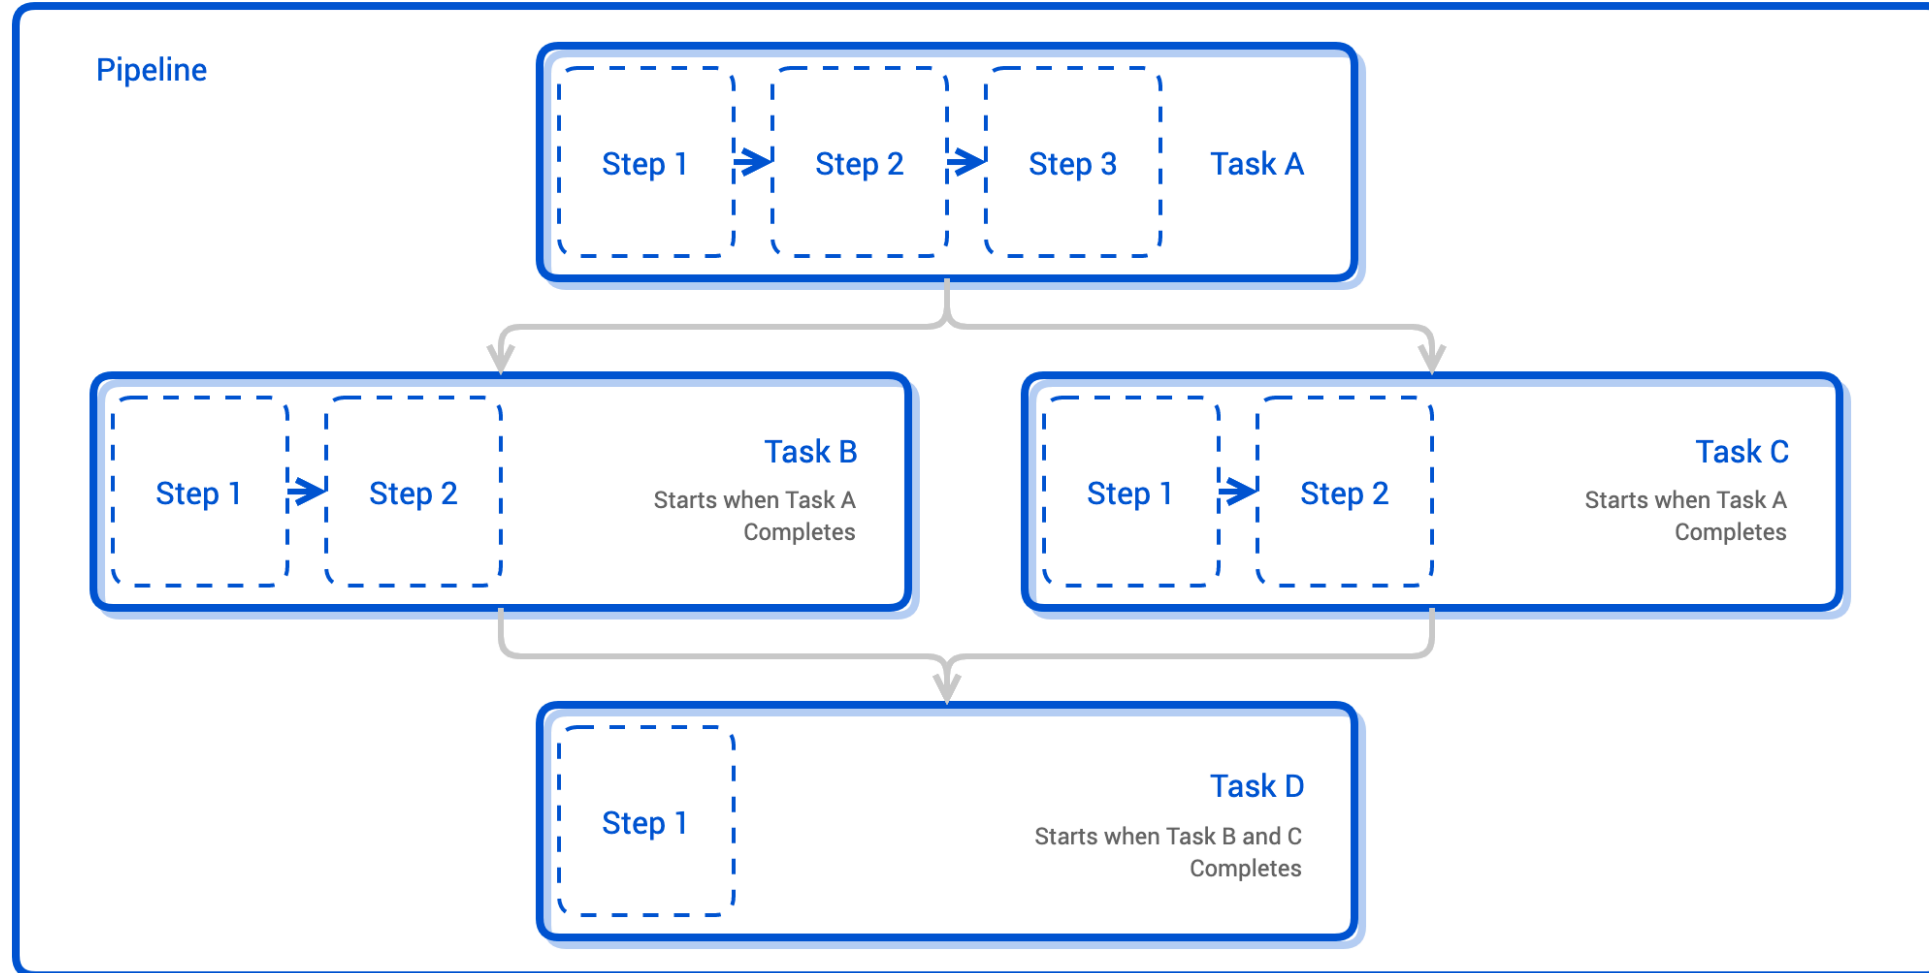

- Make your developers more productive
 - Serverless Containerized Apps
 - Focused API with higher level abstractions
 - AutoScaling based on http traffic
 - Scales to zero(0) pods
 - Knative is portable run on Kubernetes
 - Open Source
 - <http://knative.dev>
 - <http://github.com/knative>

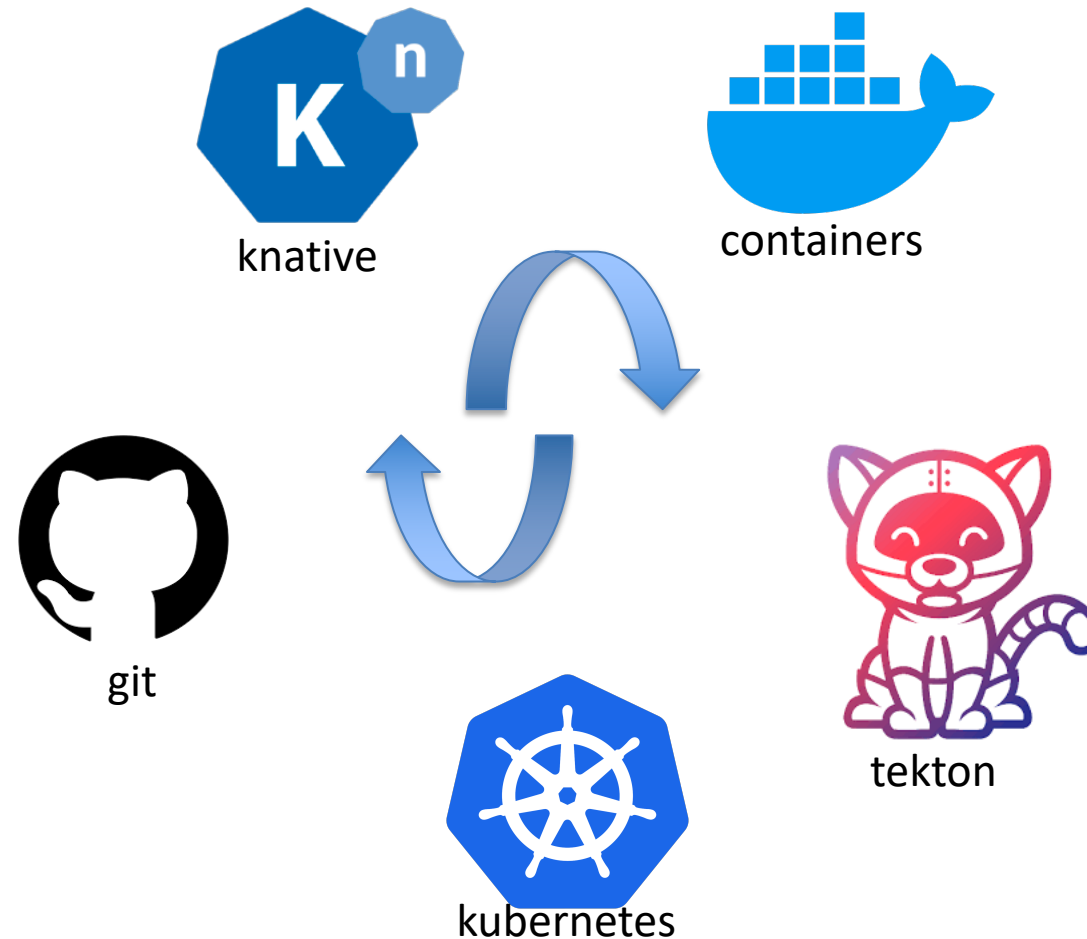

- Build, Test, and Deploy
 - Open API spec for CI/CD Pipelines
 - Standardizes CI/CD tooling for
 - Knative is portable run on Kubernetes
 - Open Source
 - <http://tekton.dev>
 - <http://github.com/tektoncd>
